

# FALLOUT!

Group Names: \_\_\_\_\_

What is the date of this pamphlet?

Who has produced it?

What is fallout?

What is a mushroom cloud?

What is radioactivity? Where does it come from?

Why is it dangerous?

Who is a target for fallout?

How will you know, or not know, that fallout is on its way?

Why is the weather important when it comes to fallout?

Who is ready to tell you about fallout? Where can you get information about it?

How do you detect fallout (as pictured on page 5)?

On page 6, which shelter is best? Worst? Why?

What does the word 'evacuate' mean? (page 6)

Why is it bad to get 'panicky'?

What simple rules should you follow in the case of an atomic emergency?

How does this pamphlet encourage? List specific examples.

How does this pamphlet discourage? List specific examples.

Look at the drawing and picture of the bomb / fallout shelter on page 9. Where would this shelter be located? How would you go about building one?

What are some of the items in the picture?

Make a list here, of the items that you and your group would like to have / need to have to stay in a basement shelter for, let's say, ten (10) days (without leaving):

Draw a diagram here of your temporary shelter. Make sure you have enough room for all of your group members. Where will you sleep, eat, go to the bathroom, etc. Your shelter is limited in size to a 12x12 ft area. Label everything!
